

**Quality, efficiency
and impressive good looks**

REHAU®

REHAU-Edge 70mm system is made by Europe's leading PVC-U manufacturer, which means high quality, visible benefits for you. Along with their exceptional aesthetic appeal, the frames won't need painting and won't warp, rot or discolour. They are also extremely secure and comply with all relevant building regulations.

PVC-U makes for greater thermal efficiency too, keeping homes warmer and minimising draughts. And when double-glazed, outside noise levels are virtually halved.

Stylish character for every home

REHAU-Edge is a fully sculptured system designed to give a traditional appearance to casement windows and doors.

REHAU-Edge will appeal to anyone wanting a sympathetic replacement for timber windows or looking to upgrade outdated PVC-U windows and doors. Its decorative sculptured edging provides attractive, ornate detail, restoring character to older buildings and introducing sought-after features to newer ones.

REHAU-Edge windows and doors are available in Classic White, Rosewood and warm Golden Oak finishes. You can even have the windows and doors to match both your interior and exterior décor – for example a clean white finish on the inside and a woodgrain finish on the outside.

ROSEWOOD

GOLDEN OAK

Windows that appreciate your home

Whatever the style of your home, we'll ensure that the window design blends in beautifully. Choose from casement windows, bay and bow casements, French windows, 'tilt and turn' windows or internally beaded for added security.

REHAU has a wide range of ancillary features, including run-through sash horns formed from the same material as the sashes to give an authentic finish and consistent colour, or the addition of external Georgian bars to achieve a traditional cottage look. The choice of glazing is impressive, including leaded stained glass, diamond lead or even bevelled glass to ensure true aesthetic appeal.

Make a grand entrance

Using the REHAU-Edge system, we can really make the most of the entrance to your home. Whether it's contemporary or traditional, cottage style or Edwardian we'll have just the door for you. We can provide French doors, patio doors and stable doors too.

Room to manoeuvre

In addition to your new door, think about adding a canopy, porch or conservatory. A canopy will shelter you from the sun and rain, while a porch or conservatory can provide a surprising amount of valuable extra space. A great benefit of a conservatory is that it effectively brings your garden right into your home for you to enjoy all year round.
